

SLADE

- by AXOM LIGHTS

AX.DRW.42581

Slade downlight is a stylish, efficient and affordable LED lighting. With a matt white that'll go with everything, it is a great way to create zones, navigate around the space and highlight your key pieces in your home/project. Fixed head downlight. Diecast aluminium construction. The ideal downlight for replacing existing halogen and fluorescent downlights, by providing a wide angled diffused beam. It is fitted with lead and plug for easy installation and the Dimmable LED driver is suitable for use with trailing edge, and universal dimmers, suitable for any modern, simple environment.
